

From: Heat Wood Production LLC

Commercial offer

Dear partners!

Heath Wood Production LLC offers you cooperation in the supply of **wood pellets** produced by our company. Our plant is located in Ukraine, the village of Zviriv, Volyn region - 15 km from Lutsk in the direction of Rivne.

Advantages of interacting with us:

- You can visit our plant and get acquainted with our process of wood pellet production.
- We supply products that meet the provided samples and approved product quality indicators. Quality control occurs during production.
- Direct deliveries and transparent terms of cooperation. Reliability, stability, mobility, efficiency.
- Flexibility in interaction: the ability to produce products under the customer's brand - Private-label projects.
- Attention and support: the ability to receive advice or the necessary information at any time about the balance of products in the warehouse, delays and the status of orders - an individual approach to each client.

Our product: wood pellets

Product features:

- Wood: only pine
- Diameter, mm: 6 or 8 - at the request of the customer
- Pellet length, mm: from 3 to 40
- Ash content: <0.7%
- Color of pellets: gray-brown

Verification of quality indicators is confirmed by test reports from:

- Ukrainian Center for International Energy Certification "UkrEnergoCert", Kyiv
- Center of independent Certification "Eurocert", Kyiv

Terms of cooperation:

- Packaging: 1 ton big bags or 15 kg bags
- Delivery: EXW Zviriv or FCA Zviriv.
If necessary, we will help with finding and selecting trucks
- Volume of one order: 1-10 trucks in one order, multiple of 22 tons in truck
- Prices and delivery dates are agreed by the parties
- Payment is made according to the schedule approved by the parties. The payment algorithm is as follows:
 - 50% prepayment for the truck
 - 50% payment on the day when the truck is loaded with goods and customs clearance

We attach to this offer test report with quality indicators.
